Re: Extended Minerals Report (EMRT) and Additional Minerals Report (AMRT)

To Our Valued Customers,

With respect for due diligence over the supply chains of raw materials, Zierick has reached out to our raw material vendors for data. For competitive and data protection reasons, the majority of our suppliers declined to publish their supplier data for the minerals appearing on the EMRT and AMRT.

Currently, there is no legal obligation for vendors to provide information on the supply chains of copper, nickel, zinc, and other minerals covered by the EMRT and AMRT. Therefore, our vendors maintain the right to not disclose their supply chain related to the covered minerals.

With most of our vendors declining to disclose their sources for the minerals listed in the EMRT and AMRT, we cannot, in good consciousness, report accurate and complete information that we strive to provide to our customers. However, all our vendors have provided us with statements regarding responsible sourcing, promising compliance with safety and human rights.

Thank you for your anticipated understanding. If you have further questions, please feel free to contact us at contactus@zierick.com.

Sincerely,

Kerry Lynster
Engineering Manager
